

Expert guided walk

Trees of Mount Ainslie

Sunday 22 August

2.00 – 4.00pm

Nature park entrance

Kellaway St / Phillip Ave, Hackett

Explore the remnant snow gums of Mount Ainslie on a walk with local ecologist Michael Doherty and discover the range of other trees as you walk through various types of woodland.

Learn to distinguish between Scribbly gum and Brittle gum and other eucalypts and find out how trees have adapted to environmental conditions such as soils, fire and drought.

Tree guides will be available for a gold coin donation.
