Join us for an expert guided walk

Trees of Mount Majura

Sunday, 25 August 2013

10.30am – 12.30pm

Nature park entrance

Mackenzie / Grayson Sts, Hackett

Enjoy a gentle and informative walk on the slopes of Mount Majura with local plant ecologist Michael Doherty. Learn how to identify the key features of the main eucalypts, including scribbly gum, brittle gum, Blakely's red gum, yellow box and apple box. Find out how the trees are distributed on the Mountain and how they cope with fire and drought.

Tree guides are available for a gold coin donation.
